Get on the train and join the fun ride. update now! This is completely unfair. We've been paying for this amazing app for 2 years monthly. Finally broke down- under a pandemic mind u- paid for a whole year in advance, and after a month it only allows us to use the free version! Won't unlock anything like the last reviewer said. I have the full receipt we paid. I don't know who to report this to next, possibly PayPal or credit card company. It shouldn't happen. On both devices, login does not say valid email in the system and we should re-subscribe. Uhh no. This needs to be solved. Tried to uninstall and reinstall the app, tried to update, nothing works! Hi, please reach us on support@kidloLand.com so we can help you access both devices. Also include a copy of your purchase receipt in your email. Education has always been extremely important to me. I have been homeschooling my son and supplementing with traditional schooling since he was a year old. We discovered this program probably about a year ago (he's 4 now) and first my son just enjoyed playing some of the games. Well then over time when we traveled there became an app that he would regularly pull up on his iPad. As we continued to enjoy the free version I adjusted the age so that the content would be appropriate and he just loved all the new additions. During the last Christmas holidays we were with my family for an extended period of time and I thought it would make sense to buy full access. Well the subscription was worth every penny. It's not a learning activity that he doesn't like. The challenge is presented in an engaging and fun way that he wants to keep trying until he gets it right. Recently our iPad died, and ended up getting a child fire tablet. In an attempt to access all the amazing learning tools I reached out to their support and what an incredible service! They reinstated our full access with quick answers to keep me updated on the process. We've tried many other learning apps for kids, but this is without a doubt one of the staples to keep in rotation. A subscription that is well worth its value. Thank you for your kind words and detailed review! We love to hear such positive comments. We hope your son continues to enjoy the app and also learn from it. If you have any suggestions, please let us know on support@kidloLand.com. I searched for an app for a young toddler that is less complicated and KidloLand is one of the best that I found. It has many stories, games and songs. My child is in vehicles and fruit, and he learns so much new things from these categories. Unlike other apps that only focus on one category, KidloLand is definitely all rounded. It also allows you to choose the age group that filters categories that are appropriate for your child. I don't usually spend much on app subscriptions, but this is definitely one that im still using. My kid's been using this for months. I started paying monthly and decided to pay for a longer subscription yesterday. And for the first time, I had problems with the renewal. I contacted customer service through WhatsApp and got a reply within a few hours. The problem was also solved. Great work! Thank you for your gratitude! Our entire team is thrilled to know that you and the little loved app. We work very hard to provide the best learning experience for our small users, and it feels great to receive such positive feedback in return. They really do our day and encourage us to continue to provide you with amazing service. © Thanks again!
